October 27, 2020

Dear Parents/Guardians,

As we continue to navigate this unprecedented school year, and as the number of positive COVID cases has begun to rise across the state, it is important to review our school's procedures. I have reattached a copy of our daily screening tool that was shared earlier this year which is used for anyone who enters our school building. Continue to review the signs/symptoms and possible exposure criteria. Notify the school if your child will be absent for any reason. If you have any questions or need immediate guidance, contact myself or our school nurse at the contact information below:

Keith Rygiel, Principal
krygiel@cerebralpalsycenter.org
973-751-0200 x215

Barbara Uwumwonse, School Nurse
buwumwonse@cerebralpalsycenter.org
973-751-0200 x242

Next, I am happy with the participation levels of our virtual-only students. We have also taken additional measures to prepare our staff and materials in the event of a mandatory schoolwide closure. Please make sure we have your most updated contact information so we can continue open communication.

Finally, thank you to all of our families for your cooperation and flexibility as we continue to find solutions to new challenges.

Stay safe and stay strong,

Keith Rygiel
Principal
